

## Overview of the Empirical Research Area

### (1) Location

“Knowledge Hub Aichi”

1267-1 Yakusa-cho Akiai, Toyota City, Aichi Prefecture

### (2) Facilities in Empirical Research Area

#### (a) Empirical Research Area

We will support the efforts of companies by establishing a demonstration research area on the premises of “Knowledge Hub Aichi” A, which is a R&D center for manufacturing technology, and by providing a place for demonstration research, free of charge. In addition, we will accept visitors to disseminate and raise awareness of fields of growing next-generation and introduce our empirical research.

#### (b) Electricity, water, gas

For Empirical Research, Electricity, water, and gas are available (actual utility costs will be borne by the applicants).

#### (c) Office

Prefectural officials in charge of Empirical Research Area are stationed in the Administration Section of the Administration Department on the first floor of the Aichi Industrial Science and Technology Center, which is adjacent to Empirical Research Area.

(Office hours: 9 a.m. to 5 p.m. on weekdays (excluding Saturdays, Sundays, holidays, and year-end and New Year holidays))

#### (d) Public Awareness Corner

We have set up a public awareness corner where the general public can visit. In this corner, it is possible to promote the empirical research by installing models and displaying panels.

### (3) Use of possible equipment

(a) Electricity: Single-phase 100V, three-phase 200V

(b) Water supply: 20A

(c) Gas: City gas (low pressure, 75A)

### (4) Procedures after the start of Priority Research Project

#### (a) Determination of an empirical research plots, etc.

After coordinating with Aichi prefectural government, we will determine the plot where the empirical research will be conducted. However, depending

on the adjustments, Empirical Research Area may not be available, and the plot and duration during the study period may be changed.

(b) Permission to use administrative property

Based on the confirmed plot, you will be required to apply for permission of use of the administrative property.

(c) Preparations for the start of the project

The Empirical Research Organization should proceed with the necessary preparations such as securing equipment and personnel so that the empirical research can begin.
